

Manthan School

I feel honored to present the Annual Report 2020-2021

1. Academic Excellence: We have done well given the batch composition. 16 students out of the 26 who took the exam got over 80%, only 2 students scored less than 74%. Kasvi Methi top scored the batch with an average of 94% and also topped Hindi with 97%, Maths with 98% and Social Science with 96%. Rithika Adari stood second in the batch with 92% and top scored English with 90%. Sai Charvi stood third in the batch with 90% and top scored Science with 91%. We congratulate all the students for the hard work they put in and thank parents and teachers for supporting them continuously.

2. On the academic front:

- Syllabus was completed as planned in spite of all the challenges to run online classes.
- Teachers quickly adapted to the online teaching methodologies. They attended various inhouse and online workshops to familiarise themselves with online tools.
- The school used various assessment tools and strategies to make sure learning interesting
- Subject enrichment activities across subjects were diligently planned; interdisciplinary projects were taken up. Students presented their work innovatively using various platforms of learning

3. Activities conducted during the year :

- The elections were planned and conducted online by students meticulously which was followed by an online investiture ceremony. Badgets were delivered to their homes by our Physical Training Instructors
- Regular assembly presentations, Literati week (language week), Srijan (math fair) were showcased online very well reflecting the involvement of both students and teachers
- Students participated enthusiastically in an online science fair conducted by KV Rao society for Science and the project idea of one of our students Bhavin of grade 9, was selected.
- Students participated actively in various cultural and debate competitions organized by

different schools and also bagged many prizes.

- High school students did an interesting summer internship with DRILLS, (Reddy labs). They presented their experience with peers in a very interesting manner.
- The school took initiative for career counseling sessions to motivate the students.

4. As part of 'care for our environment' students were encouraged to grow plants and showcase in the class. Middle school students actively participated in an inhouse DIY workshop in which the 4 R's were emphasised.

5. Teacher workshops

- Various training sessions were attended by the teachers online.
- Mid term and term end PTM's were conducted as scheduled. Parents were briefed about the effectiveness of continuous assessments of the learners and the productive feedback cycle for self improvement.

Thank you
